

## Aircraft Maintenance, Repair and Overhaul

<b>Sector</b>	TRANSPORT - AIR	
<b>Thematic focus</b>	MAINTENANCE SERVICES	
<b>Entities/Areas</b>	Government of Valle del Cauca, Mayor's Office of Palmira, Mayor's Office of Cali	
<b>Contributing partner</b>	M.R.O., Metal Mechanics M.R.O., Metalworks	
<b>Project name</b>	Maintenance, repair and overhaul for aircraft	
<b>Plan Strategy National development to which it points</b>	Development of the basic principles of the national development plan, related to the strengthening of regions and transport systems.	
<b>Target SDGs</b>	Maintenance, repair and overhaul for aircraft	
<b>Description of the Project</b>	Purpose of the project	Develop an M.R.O. for aircraft at Alfonso Bonilla Aragón airport.
	Objectives	Establish a world-class aircraft maintenance, repair and overhaul (MRO) workshop at Alfonso Bonilla Aragón Airport to serve airlines operating in Latin America, the USA, Mexico and Europe.
	Geographical Area of Influence	Alfonso Bonilla Aragón Airport
	It is included in the PND targets:	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
	Structuring Phase	Yes
	Target: (km) , (panels etc).	An aircraft maintenance, repair and overhaul facility in operation
	It is located in a protected area or with indigenous/ Afro-descendant communities:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Which _____

## Aircraft Maintenance, Repair and Overhaul

<b>Duration by Phases</b>	1 to 2 years depending on the extent of the operation	
<b>Contributions</b>	Total Value	\$ Between USD 10 to 90 million depending on number of hangars
	National contribution	\$
	Contribution from Territorial Entities	\$
	Private Contribution	\$
<b>Investment Opportunities</b>	<p><b>Investment Opportunity:</b> Provides a clear statement of the investment opportunity, emphasising its financial and strategic attractiveness. It includes the estimated amount of investment required and also any donor or government-backed funding that is available.</p>	
<b>Market Analysis</b>	<p>Alfonso Bonilla Aragón airport has a privileged location as it is close to the largest airports in Latin America (Mexico, Sao Paulo, Buenos Aires and Santiago de Chile). Its climate is optimal for air operations and in 2023 it had the least hours of closure due to weather conditions among the main airports in the country.</p> <p>Among Colombia's main airports, it is the only one with availability in domestic and international terminals and has land for private infrastructure, terminal expansion and a planned second runway.</p> <p>To provide aircraft maintenance and repair services, Valle del Cauca has the necessary human capital. Over a period of 20 years, more than 39,000 professionals and more than 41,000 technicians have graduated in related areas. In addition, Cali is home to the military aviation school for officers of the Colombian Air Force, where professionals with much more specific competencies in this area graduate.</p>
